Total for Year	\$0.00		
2022-2023 Programs and Services	Allocated Amount	Description	Rationale (Allowable Use of Funds)
<b>EEF Funds will not be spent in the 22-23 School Year</b>			
Total for Year	\$0.00		
2023-2024 Programs and Services	Allocated Amount	Rationale (Allowable Use of Funds)	Description
SXSW EDU Conference	\$7,500.00	Coaching and mentoring of staff serving in an instructional setting and beginning teacher or administrator induction, including, but not limited to, coaching and mentoring solutions that address a local need for teachers that can serve all pupil populations with a focus on retaining teachers, and offering structured feedback and coaching systems organized around social-emotional learning, including, but not limited to, promoting teacher self-awareness, self-management, social awareness, relationships, and responsible decision making skills, improving teacher attitudes and beliefs about one's self and others, and supporting learning communities for educators to engage in a meaningful classroom teaching experience.	This experience offers unparalleled discovery, learning, professional development, and networking with educators from around the world. The annual SXSW EDU Conference & Festival fosters innovation and learning, and features Conference sessions, film screenings, a world-class Exhibition, networking opportunities, competitions, and much more.
Learning Forward	\$7,749.00	Coaching and mentoring of staff serving in an instructional setting and beginning teacher or administrator induction, including, but not limited to, coaching and mentoring solutions that address a local need for teachers that can serve all pupil populations with a focus on retaining teachers, and offering structured feedback and coaching systems organized around social-emotional learning, including, but not limited to, promoting teacher self-awareness, self-management, social awareness, relationships, and responsible decision making skills, improving teacher attitudes and beliefs about one's self and others, and supporting learning communities for educators to engage in a meaningful classroom teaching experience.	For 50 years, Learning Forward has supported leaders at all levels to transform their schools into true learning systems, where all educators engage in a measurable and scalable cycle of improvement. High-impact professional services help schools set an attainable vision for an effective and equitable system of professional learning that leads to improved leader, educator, and student outcomes. Learning Forward provides partners with tools to transform professional learning, increase educator capacity, and improve student achievement. The Learning Forward conference provides a professional learning experience that is standards-driven, job-embedded, and focused on improved instruction and better results for all students.
CABE Conference	\$3,200.00	Instruction and education to support implementing effective language acquisition programs for English learners, which may include integrated language development within and across content areas, and building and strengthening capacity to increase bilingual and biliterate proficiency.	The goal of CABE is to support the vision of biliteracy, multicultural competency, and educational equity for all students. This conference is designed to increase teachers' capacity to create caring and highly effective learning environments that promote multiliteracy and support English learners and all diverse populations to graduate college, career, and globally prepared to live their lives to their fullest potential.
California Mathematics Council Conference	\$560.00	Programs that lead to effective, standards-aligned instruction and improve instruction in literacy across all subject areas, including English language arts, history-social science, science, technology, engineering, mathematics, and computer science.	This conference offers over 250 workshops led by top mathematics educators from California and the United States. Attendees will feel empowered to rediscover their joy and their students' joy in exploring mathematics! Workshops will offer content to support all students including English language learners, under-represented students, and students with special needs. There will be sessions geared towards our College and Career Readiness Standards, Mathematics Equity and Excellence, STEM, as well as Coaching/Mathematics Leadership. Attendees will get tips to implement the Eight Standards for Mathematical Practice and Technology in their classroom as well as learn innovative teaching strategies from the best mathematics leaders.
National Conference on Science Education	\$1,555.00	Programs that lead to effective, standards-aligned instruction and improve instruction in literacy across all subject areas, including English language arts, history-social science, science, technology, engineering, mathematics, and computer science.	Created "by educators, for educators," NSTA is thoughtfully developed with you in mind. The conference is perfect for pre-service/new teachers and classroom veterans (K-12), professors, informal educators, administrators, and curriculum specialists who want to explore best practices, innovative instructional strategies and techniques, and next-level engagement approaches for inspiring students in science and STEM.
Total for Year	\$20,564.00
